COVID-19 general entry restrictions

See updates on list of safe and high-risk countries – General information website: <https://www.government.nl/topics/c/coronavirus-covid-19/visiting-the-netherlands-from-abroad/checklist-entry>

Actualized checklists for entering or returning to the Netherlands from abroad: specific exemptions for participation to the Veghel World Cup 2021.

Check these points before you travel. Please note: *the United Kingdom is not part of the EU/Schengen area.*

I. Travelers from EU/Schengen

A. Traveling from a safe country:

[Checklist for entering or returning to the Netherlands from the EU/Schengen area during COVID-19 | Coronavirus COVID-19 | Government.nl](#)

- 1. No EU travel ban**
- 2. No proof of vaccination, proof of recovery or negative test result needed**
- 3. No self-quarantine required**

If you are coming from a country/region in the EU/Schengen area where the risk of contracting COVID-19 is low (a safe country) you do not need to show proof of vaccination, proof of recovery or a negative test result (this includes the Digital COVID Certificate).

You do not need to self-quarantine when entering or returning to the Netherlands from a country or region within the EU/Schengen area.

4. Health declaration

[COVID-19 and flying to the Netherlands: health declaration form \(English, Dutch, Spanish and French\) | Publication | Government.nl](#)

If you are travelling by air, you must fill in a health declaration (only when aged 13 or above) and carry it with you. Some airlines allow you to complete this health declaration digitally when you check in.

5. Take a test (even if you have no symptoms and/or have been vaccinated)

You are advised to take a coronavirus test after arriving in the Netherlands. This applies even if you have been vaccinated. Self-test kits are available in most drugstores, supermarkets and pharmacies.

B. Traveling from a high-risk country:

[Checklist for entering or returning to the Netherlands from the EU/Schengen area during COVID-19 | Coronavirus COVID-19 | Government.nl](#)

- 1. No EU travel ban**
- 2. Proof of vaccination, proof of recovery or a negative test result required**

You need to show proof of vaccination, proof of recovery or a negative test result (this includes the Digital COVID Certificate) if you are travelling from a high-risk country/region in the EU/Schengen.

a) You can show proof of vaccination or proof of recovery (this includes the Digital COVID Certificate)

Travelers within the EU who can show proof of vaccination or proof of recovery (for example a Digital COVID Certificate) don't need to show a negative NAAT (PCR) or antigen test result.

b) You can't show proof of vaccination or proof of recovery, or your proof of vaccination is not valid.

If you can't show a proof of vaccination or proof of recovery (this includes the Digital COVID-19 Certificate) you must be able to show a negative COVID-19 test result. This applies to everyone aged 12 or over.

[Test result requirements | Coronavirus COVID-19 | Government.nl](#)

- Read more information about the [mandatory negative COVID-19 test result and the type of result you need](#).
- See [netherlandsworldwide.nl](#) for a [list of locations for PCR and rapid tests abroad](#).

3. No self-quarantine required

4. Health declaration

[COVID-19 and flying to the Netherlands: health declaration form \(English, Dutch, Spanish and French\) | Publication | Government.nl](#)

If you are travelling by air, you must fill in a health declaration (only when aged 13 or above) and carry it with you. Some airlines allow you to complete this health declaration digitally when you check in.

5. Take a test (even if you have no symptoms and/or have been vaccinated)

You are advised to take a coronavirus test after arriving in the Netherlands. This applies even if you have been vaccinated.

II. Travelers from outside EU/SCHENGEN

A. Traveling from a safe country:

[Checklist for entering or returning to the Netherlands from outside the EU/Schengen area | Coronavirus COVID-19 | Government.nl](#)

1. No EU travel ban

2. Proof of vaccination or negative (PCR) test result required

You need to show a negative (PCR) test result if you are travelling from a safe country/region outside the EU/Schengen onwards. In some cases, a proof of vaccination is sufficient.

- Read more information about the [mandatory negative COVID-19 test result and the type of result you need](#).
- See [netherlandsworldwide.nl](#) for a [list of locations for PCR and rapid tests abroad](#).

3. No self-quarantine required

4. Health declaration

[COVID-19 and flying to the Netherlands: health declaration form \(English, Dutch, Spanish and French\) | Publication | Government.nl](#)

If you are travelling by air, you must fill in a health declaration (only when aged 13 or above) and carry it with you. Some airlines allow you to complete this health declaration digitally when you check in.)

5. Take a test (even if you have no symptoms and/or have been vaccinated)

You are advised to take a coronavirus test after arriving in the Netherlands. This applies even if you have been vaccinated.

B. Traveling from a high-risk country:

[Checklist for entering or returning to the Netherlands from outside the EU/Schengen area | Coronavirus COVID-19 | Government.nl](#)

1. No EU entry ban

2. No mandatory quarantine

3. Negative COVID-19 test result

You must be able to show a negative COVID-19 test result. This applies to everyone aged 12 or over and even if you have been vaccinated. The type of mandatory negative test result you need depends on the mode of transport you use.

[Test result requirements | Coronavirus COVID-19 | Government.nl](#)

- Read more information about the [mandatory negative COVID-19 test result and the type of result you need](#).
- See netherlandsworldwide.nl for a [list of locations for PCR and rapid tests abroad](#).

4. Health declaration
